C1

*The important thing
about a spoon is
that you eat with it.
It's like a little shovel,
You hold it in your hand,
You can put it in your mouth,
It isn't flat,
It's hollow,
And it spoons things up.
But the important thing
about a spoon is
that you eat with it.*

The important thing
about a daisy is
that it is white.

It is yellow in the middle,
it has long white petals,
and bees sit on it,
it has a ticklish smell,
it grows in green fields,
and there are always
lots of daisies.

But the important thing
about a daisy is
that it is white.

The important thing about rain is
that it is wet.

It falls out of the sky,
and it sounds like rain,
and makes things shiny,
and it does not taste like anything,
and is the color of air.

But the important thing about rain
is that it is wet.

A piece of white paper with three blue pushpins is pinned to a horizontal wooden plank. The paper contains text about grass. The scene is surrounded by lush green grass, with some blades in the foreground and others in the background. The lighting is bright, suggesting a sunny day.

The important thing
about grass is that it is green.
It grows, and is tender,
with a sweet grassy smell.
But the important thing about grass
is that it is green.

The important thing about snow is that it is white. It is cold, and light, it falls softly out of the sky, it is bright, and the shape of tiny stars, and crystals. It is always cold. And it melts.

But
the important thing
about the snow is
that it is white.

The important thing about an apple

is that it is round

It is red

You bite

and it is white inside

and the juice splashes in your face

and it tastes like an apple

and it falls off a tree

But the important

thing about

an apple is

that it is

round.

The important
thing about the
wind is that it
blows. You can't
see it, but you
can feel it on
your cheek,
and see it bend
trees, and blow hats
away, and sail boats.

**BUT
THE IMPORTANT THING
ABOUT THE WIND IS
THAT IT BLOWS.**

The important thing
about the sky is that it is always
there. It is true that it is blue,
and high, and full of clouds,
and made of air.
But the important thing about
the sky is that it is always there.

The important thing about a shoe

is that you put your foot in it

You walk in it

and you take it off at night

and it's warm when you take it off

at the important thing about a shoe
that you put your foot in it.

The important thing about you is
that you are you.

It is true that you were a baby,
and you grew,
and now you are a child,
and you will grow,
into a man,
or into a woman.

But the important thing about you
is that

you
are

you

The important thing about

—is that you let your child
tell you what is important
about the sun and the moon
and the wind and the rain
and a bug and a bee
and a chair and a table
and a pencil and a bear
and a rainbow and a cat
(*if he wants to*).

For the important thing about
THE IMPORTANT BOOK
is that the book goes on
long after it is closed.
